

Community Legislative Network of the Paradise Valley Unified School District

Are you concerned about these education issues?

- AIMS and other standardized testing requirements
- Fine arts, gifted and special education
- Attraction, retention, and professional training of quality teachers
- State funding for public schools, which impacts all of the above

Receive the latest information on legislative issues that affect our children's education. Learn how to communicate with your elected officials to bring about positive change in public education. And no meetings are required: You can choose a time that is convenient for you to email or telephone your legislators from the comfort of your own home.

Email updates, including contact information for your legislators and timely updates on bills being considered by the Arizona State Legislature, are provided by the Community Legislative Network, a committee comprised of parents, community and staff members in the district.
